

Smithsonian Institution Fellowships

open for Smart State researchers

'My fellowship was the experience of a lifetime. For four months, I was able to work exclusively on a major review of museum programs with international contemporaries. I gained new insights about my work and how to do it better, which I am sharing with my Queensland colleagues.'

*Bernadette McCormack
The Workshops Rail Museum*

The Queensland–Smithsonian Fellowship Program gives three Queenslanders a unique opportunity to spend up to six months undertaking research at the prestigious Smithsonian Institution based in the United States of America.

Applications are open to Queenslanders working in any area of mutual interest with the Smithsonian Institution including:

- evolutionary, systemic, behavioural and environmental biology
- biodiversity, conservation and climate change
- earth and mineral sciences
- anthropology, archaeology, Indigenous studies and cross-cultural studies
- science and technology
- art and design
- museum-based education, science education and museum outreach
- museum management and practice.

Applications close 5 pm Friday 9 March 2012

For information, application forms and guidelines visit:
